There is an inverse relationship between family size and educational attainment of the mother. Among those who completed high school without further education, 43.3 percent had no previous live births. 8.0 percent had more than 2, and 2.8 percent had more than three. For mothers with some college, and mothers who graduated college, the number with two or more previous live births was lower. For those with some college, 13.3 percent had two previous live births, 3.7 percent had three, and 1.6 percent had more than three. Mothers who had not earned a high school diploma had the largest number of previous live births. Mothers in this group gave birth to 20.4 percent of all newborns, but comprised 32.9 percent of mothers with three previous live births and almost one-half (45.4 percent) of those with more than three previous live births.

Attendant At Birth

Of all births, 97.9 percent (94,392), were attended by a physician. Approximately 98.5 percent of white births, 95.2 percent of black births, and 98.7 percent of other births were physician attended. Midwives attended 1.9 percent of all births. Of the 1,853 midwife-attended births, 1,001 were white, 827 were black, and 23 were other races. Midwife attendance occurred at 1.4 percent of the white births, 4.4 percent of the black births, and 1.2 percent of other births.

DEFINITIONS

Apgar Score - composite measure used to evaluate the newborn infant's general condition. Apgar scores are given one and five minutes after birth. Heart rate, respiratory effort, color, muscle tone and reflexes are checked and evaluated. Each factor receives a score of 0, 1, or 2 and the sum of the five values is the overall score. A score of ten is optimum.

Birth Rate - the number of live births per 1,000 population.

Birthweight - weight of the infant at time of delivery.

Fertility Rate - the number of live births to women aged 15-44 per 1,000 women in this age group, usually expressed as an annual rate.

Illegitimate Birth - a birth to an unwed woman, or to a woman whose husband did not father the infant.

Immature Birth - a live birth weighing 2,500 grams, 5 lbs. 8 oz., or less.

Legitimate Birth - a birth to a married woman whose husband fathered the infant.

Residence - mother's place of residence.

Trimesters - 1st - first 12 weeks of pregnancy
2nd - second 12 weeks of pregnancy
3rd - period after first 24 weeks of pregnancy
